SUMMARY

AI student with hands-on project experience in ML, NLP, and software development, plus competitive programming wins reflecting strong technical judgment. Combines technical fluency with communication and coordination experience from PR and event roles through university society, bringing a people-focused approach to technical recruitment.

EXPERIENCE & INVOLVEMENTS

PR & Event Coordination Member, *Computer Science Society – UMT* 🔗 2026 – Present
Supported PR and on-ground coordination for technical events, managing student communication, check-ins, and event flow. Sialkot, Pakistan

EDUCATION

BS. Artificial Intelligence, *University of Management and Technology* 2023 – 2027
CGPA: 3.86 Sialkot, Pakistan
Relevant Coursework: Data Structures, SQL & Databases, OOP, PF, Computer Networks, Programming for AI, Machine Learning, Natural Language Processing, Analysis of Algorithms, Operating Systems, Deep Learning, Data Mining

PROJECTS

Study Buddy 🔗, *HTML, CSS, JAVASCRIPT, C#*
Built a full-stack ASP.NET MVC web application with SQL Server featuring an AI-powered study hub that generates lectures, flashcards, and quizzes from uploaded files or topics via AI API integration. Includes a weekly planner with task analytics, Pomodoro timer, and session-based authentication.

CyberLawPal – Cybercrime RAG System, *Python*
Developed a Retrieval-Augmented Generation system to assist with cybercrime law queries based on the Prevention of Electronic Crimes Act (PECA 2016). Implemented semantic search using FAISS with all-MiniLM-L6-v2 embeddings from Hugging Face, and integrated Groq-hosted LLMs for answer generation. Built an interactive web interface using Gradio.

TheWayShop – E-Commerce Web Application 🔗, *HTML, CSS, JAVASCRIPT, C#*
Built a full-stack e-commerce web application using ASP.NET MVC and SQL Server with a Bootstrap-based responsive storefront. Implemented role-based access for Super Admin, Admin, and Users, with product/category management and PayPal Sandbox integration covering the complete cart-to-receipt checkout flow.

Fake News Detection, *Python*
Built a fake news classification model using NLP and machine learning. Applied text preprocessing and TF-IDF vectorization, trained multiple classifiers, and evaluated performance using accuracy, precision, recall, and F1-score.

Airline database System 🔗, *SQL*
Designed and queried a relational database to manage flight, passenger, and booking records.

Encryption & Decryption 🔗, *C++*
Designed and implemented matrix-based encryption algorithms for secure message encoding and decoding.

CERTIFICATES

- Python Data Analyst [↗](#)
- Introduction to SQL
- Data Analyst with Excel [↗](#)
- Google Cybersecurity [↗](#)
- HTML & CSS for Web Developers [↗](#)
- Introduction to CSS3 [↗](#)

SKILLS

Programming Languages — Python, C++, SQL, Assembly, HTML, CSS

Technical Skills — Machine Learning, Deep Learning, NLP, RAG, Information Retrieval, Model Evaluation, Feature Engineering, Data Analysis & Visualization, ASP.NET MVC

Tools — Excel, PowerPoint, Word, Access, Cisco Packet Tracker, Pycharm, VS, Colab, VS Code, Dev C++, GitHub, SQL Server, Linux

Soft Skills — Problem-solving, Communication, Teamwork, Time management, Critical thinking, Adaptability

ACHIEVEMENTS

4 Dean Awards & 1 Rector Award

University of Management and Technology

Coding Quiz Competition (2025) - 3rd Position

University of Management and Technology

Code Sprint junior (2025) - Runner up

InnovateX Coding Competition – Brackets Ltd & GIFT University Gujranwala

Speed Programming (2026) - Winner

Creutex Competition - University of Management and Technology & Patronecs

Bug Hunting (2026) - Runner up

Creutex Competition - University of Management and Technology & Patronecs

EXTRACURRICULAR

Convocation Management

Assisted in event organization, guest coordination and logistics support during university convocation.

Sialkot, Pakistan

Fundraising Volunteer, Shaukat Khanum Memorial Hospital

Organized and participated in donation drives for cancer patient support.

Sialkot, Pakistan
